About Us

Taropa Technologies is a dedicated Level 1 B-BBEE contributor business solutions aggregator in Office Automation, providing quality products, professional services and value-added support to its dealer network in Southern Africa.

Since it's formation in 2007, Taropa has developed a concrete understanding of its client's requirements and the ever-changing market challenges that influence the way in which it conducts business.

Taropa keeps abreast with the latest product development, user trends and service requirements to ensure that it provides the best solutions that are focused around its client's needs. In addition, flexible finance solutions service level agreements, technical and sales support, are offered as significant business tools which allow its clients to grow and succeed in their own respective trading.

The drive for excellence is what makes Taropa strive for distinction in every part of its business.

In its role as a responsible corporate citizen, Taropa understands the significant impact of environmental awareness, sustainability, and good governance on its business processes.

Continuing to serve and uplift the communities in which it operates is an essential cornerstone of the Taropa Technologies Philosophy.

Every member of the Taropa team is an invaluable asset to the organization, enhancing each business process that sets Taropa apart in the marketplace. The true strength of Taropa lies in its dedicated team, where each individual plays a vital role in fostering a proactive business environment.

Driven by a commitment to forward-thinking, integrity, and reliability, the Taropa team collectively contributes to the company's success and distinctive market presence.

Taropa Services

Technical Services

Taropa Technologies offers comprehensive on-site and remote technical services for all HP and Samsung devices, ensuring our clients experience minimal disruption to their operations.

Training

Taropa provides certified technical training on all devices to equip technicians with the necessary skills to effectively assist customers with any technical issues that may arise.

Warranty Assistance

The service team facilitates warranty-related services and claims for all eligible HP and Samsung devices, ensuring a seamless experience for our clients in managing their equipment's lifecycle.

Taropa Support

Sales Support

The Taropa team is committed to delivering exceptional customer service, providing the support necessary to exceed client expectations and foster lasting relationships.

Marketing Support

Taropa's marketing department actively supports partners by managing partner reward programs and assisting them in effectively utilizing the available portals for optimal engagement and success.

Logistics Support

Taropa collaborates with a skilled logistics partner to ensure timely and accurate delivery, providing clients with the reliable support they need for a smooth operational flow.

MPS Monitor

MPS Monitor is the ultimate solution for remotely monitoring and managing printers, enhancing the efficiency and profitability of Managed Print Services. With our Data Collection Agent, we seamlessly capture data from printers of any brand and model. Our robust cloud platform processes, archives, and provides access to critical data for business operations, while our Application Programming Interfaces (APIs) allow for easy integration of printer data into user applications.

Benefits

- Comprehensive Multi-Brand Monitoring: Manage and monitor all printer models compliant with MIB standards, regardless of brand.
- Enhanced Security: Safeguard the privacy and confidentiality of critical business information, including customer details, contracts, costs, volumes, and supply levels.
- Seamless Integration: Connect with external systems to fully automate invoicing processes.
- Continuous Alert Tracking: Receive real-time updates on alert statuses and consumable deliveries.
- Automated Supply Processes: Streamline consumables procurement through fully automated supply management.
- Predictive Analytics: Benefit from insights into projected volume and consumption, with consistent comparison between forecasts and actual data.
- Effortless Data Collection: Eliminate the need for user contact or scheduled on-site visits to gather printer-related data.
